

Product Change Notification

TE Connectivity

Product Change Notification: P-17-015023

PCN Date: 08-NOV-17

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

For all contactor coils, change bobbin material, pre-inserted bushing and manufacturing location

Description of Changes

Standardize coil production by changing the following: 1) Change bobbin material to Vydne 909 (nylon) which is UL approved. This material also eliminates bromine which can corrode copper. 2) Have the supplier pre-insert the bushing. This will help reduce contaminants help reduce quality issues. 3) Change the manufacturing location to TE Korea which has a better control of winding (layered) for more consistency.

Reason for Changes:

Product improvement. These coils are already being used by automotive contactors manufactured at TE Korea.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	06-FEB-2018
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments
