<b>Subject:</b>	Notification of Planned Change	
<b>Distribution:</b>	Affected customers	
<b>Type of Change:</b>	Location Change	
<b>Change Description:</b>	<p>Amphenol is transferring our existing Airmax VS production in Senai, Malaysia to our factory in Dongguan China.                      For the VS vertical receptacle series , products will transfer "as is" to Dongguan.                      For any right angle headers and receptacles or vertical headers, Amphenol plans to migrate customers to VS2 series, which is a backwards compatible, higher performing product. We will support that transfer at the same cost you pay today.                      For any demand of VS right angle headers and receptacles or vertical headers that remain in VS series after Feb 2022, production prices will increase 6% on shipments to cover the additional production related costs.                      This transfer to complete by 2022 Feb.</p>	
<b>Reason for Change:</b>	<p>Given the decline in global demand for Airmax coupled with rising production costs, Amphenol is transferring our existing Airmax production in Senai, Malaysia to our factory in Dongguan China. Dongguan is the primary production site for Airmax globally and is a vertically integrated, world class production facility. In addition to Airmax, Dongguan also produces ExaMAX, ExaMEZZ and the XCede HD family of backplane products.</p>
