Product Manager:	David Hansen		Issue Date:	28th Feb, 2009
			Page(s):	1/1
Distribution:	GLOBAL			

Selected FCI Jumpers; **Color Change Only**

THIS IS NOT A DISCONTINUANCE NOTICE

Nature of change:

Housing color for all connectors will change from "black" to "white."

Reason for change:

Product color change is needed to effectively utilize vision systems in FCI manufacturing process.

Impact of change:

None. Plastic resin will remain the same. Only the color will change.

Product functionality will not be affected, however, customers should exercise caution and review process instructions and other documentation that may relate to housing color

Part Numbers Affected:

See attached Excel spreadsheet.

Implementation dates:

April 1, 2009 or immediately after inventory depletion or whichever comes first. Samples available upon special request

Customer action:

Where applicable, change color on prints.
